

# LabPRO QuickFit Cell Culture Dish

## Introduction

LabPRO QuickFit Cell Culture Dish offer compatible surface support for animal cell attachment and growth. The surface is treated with vacuum plasma, which makes the polystyrene surface more hydrophilic, thus facilitating maximum adhesion for a broad range of cell types.

Our cell culture dishes are designed to support the growth and propagation of cells in culture. They are manufactured under stringent conditions in order to assure the integrity of your tissue culture and cell culture work. Sizes are available in 35mm, 60mm, 100mm and 150mm.

- Certified RNase/DNase free, Pyrogen free, and low endotoxins
- Rim on the bottom side of the lid for easy safe stacking
- Feature a special tissue culture (TC) treatment that ensures optimum cell attachment and growth
- Manufactured from optically clear, premium grade, non-toxic virgin polystyrene

## LabPRO QuickFit Cell Culture Dish

Product code	Product Description	Qty/Ctn
LPCP0266	35mm, Tissue Culture (TC) Treated, Easy-Grip, Sterile	500
LPCP0267	60mm, Tissue Culture (TC) Treated, Easy-Grip, Sterile	500
LPCP0268	100mm, Tissue Culture (TC) Treated, Easy-Grip, Sterile	300
LPCP0269	150mm, Tissue Culture (TC) Treated, Easy-Grip, Sterile	80
